

Providing our clients with an intuitive service and the best advice

Chartering

With more than 20 years experience providing exclusive brokerage services to some of Europe's foremost project and break-bulk charterers, **Danbrit Shipping Limited** are well-known for their reputation in the worldwide project markets. Throughout, however, we have maintained a strong team of brokers specialising in bulk, steel products and general chartering markets, principally acting on behalf of exclusive and semi-exclusive clients.

As exclusive brokers, we are able to provide our clients with the most accurate market information based on an intuitive knowledge of their business and individual chartering requirements; in this way we are able to provide the best service and advice, whatever our clients' needs. However, just because we are exclusive does not mean we are not competitive. At **Danbrit Shipping Limited** we always strive to get the best possible outcome for our charterers.

- Bulk Cargoes**
- Unitised**
- Steel Products**
- Break-Bulk**
- Liner Bookings**
- Reefer**
- Project Cargoes**

Danbrit Shipping Limited are aware that, often, our clients require the shipment of smaller quantities of product to ports not serviced by liner operations. This is why we have teamed up with **International Shipping and Project Services Ltd** and **Navimar Shipping Ltd** to provide a parcel booking service. Specialising in booking cargoes and consolidating shipments, International Shipping and Project Services Ltd and Navimar Shipping Ltd help our clients take the risk and cost out of chartering. Parcel services offered include:

UK • Continent • Baltic • Mediterranean • Africa • Far East • The Americas
